MEMORANDUM FOR: Director of Information Technology

VIA: Chief, Information Management Staff

FROM: Chief, Counterintelligence Center,
Operations GroupSUBJECT: Request for Priority Action on Computer
Terminal Requests

1. There are certain operational activities in the Counterintelligence Center that require the use of computer terminals for them to be accomplished in a timely and efficient manner. In particular, we need two Delta Data terminals installed; one in 3C-19 and the other in 3E-05. We have identified Delta Data terminals that can be relocated to meet these requirements, but we understand there can be a delay of up to three months for this type of activity. The critical nature of the operations for which these terminals are needed dictates that we not wait that long in these cases. I would appreciate it if you would grant a special priority for these actions so they can be completed soonest. The details are spelled out in the following paragraph.

2. One request is for the relocation of a Delta Data terminal from GA-50 to 3C-19 (ref TRN# M01262). The second request is for the relocation of a Delta Data terminal from 3D-5317 to 3E-05 (TRN# M01387). Your support of this request will be very much appreciated.

3. All portions of this document are classified Secret.
